Entrepreneurship
Program**

Benefits of ccTLDs

- #1: ccTLDs offer Local Targeting and SEO Benefits

The .ng is a leverage for great ranking on SERPs (search engine result pages) and allows you to target traffic from specific areas of the country.

- **This ties into your SEO value as well.**
-

Using a ccTLD gives you a higher SEO value for country-based search results.

- **#2: ccTLDs instill Buyer Confidence**

- **ccTLDs are good for credibility and they give visitors to your website more confidence.**

#3: ccTLDs allow you to bring out your creativity

- **Domain Hack**

- ✓ **singi.ng**

- ✓ **danc.i.ng**

- ✓ **food.ie**

- ✓ **subscri.be**

- **Keep in mind that TFhost offers all ccTLDs and almost all gTLDs, making it easy for you to come up with your very own creative domain hack.**

Marketing .ng (in the case of TFhost)

- #1. Referral Program
- #2. Affiliate Program
- #3. Domain Reseller

Introduction to your domain reseller package

- TFhost domain reseller package offers an unlimited array of advantages to its resellers and high profit margins.

WELCOME

Reseller Area contains assorted features that will allow you to competently manage your reseller account.

1. Start your reselling venture by setting up your brand. Take care of every key aspect, including your own company name, email signature and logo, in [the 'Configuration' section](#). This is where you might also be offered the freedom to handle individual email templates and payment gateways.
2. Access [the 'Pricing' sector](#) to define the price of each product, add-on and domain that you would like to sell. Be sure to keep the pricing within the set limits. Once it is done, get a direct cart URL to be shared with your customers – simply click the orange button next to a given product - and launch a hunt for sales!
3. The more creativity you will pour into promotional activities, the bigger your profits will be. Do not be afraid to make your business personal – using the product URLs in a unique way is always a good place to start!

As soon as you get the first customers, the Reseller Area will offer a variety of components aimed to help you manage them with ease:

- [The 'Clients' section](#) will allow you to handle the essential details of your customers. You can carefully manage all features of [the invoices](#) and [orders](#) placed by them at once.
- You will be empowered to communicate with acquired customers. Click [the 'Tickets' tab](#) to provide your clients with direct assistance through the ticket system.
- Owing to [the statistics](#) you will easily monitor the growth in your sales!

[The documentation](#) will carefully guide you through an exciting variety of possibilities raised by the Reseller Area.
